It has been our endeavor to make all activities of the school transparent and so the admission process updates will be available here. The chart below will give the update regarding the admissions.

In the event of any parent having registered, and fall into the category and date to which admissions have been given, kindly meet the Principal of the respective Campus to which admission is sought.

Please note that registrations for the **General category done after 01 Feb 2017 may find it difficult to get admission** as the number of students registered far exceed the maximum capacity that each class can hold. However all efforts shall be made to accommodate as many students who have registered.

Further admissions have now been put on hold pending the decision from the MOPE regarding age. As and when this is cleared we will be resuming admissions. Parents will receive an SMS and an email when their turn for admission comes.
